7 SYMANTEC CORPORATION

8
9 UNITED STATES DISTRICT COURT
10 NORTHERN DISTRICT OF CALIFORNIA
11 SAN FRANCISCO DIVISION

12 JAMES GROSS,

13 Plaintiff,

14 v.

15 SYMANTEC CORPORATION, et al.,

16 Defendants.

CASE NO.: C 12-00154 CRB

**SYMANTEC'S MOTION TO
DISMISS THE FIRST AMENDED
COMPLAINT**

Date: June 8, 2012
Time: 10:00 AM

SUMMARY OF ARGUMENT

Defendant Symantec Corporation (“Symantec”) moves to dismiss the First Amended Complaint filed by Plaintiff James Gross (“Complaint” or “FAC”) in which Plaintiff alleges that he was deceived into purchasing software developed and sold by a subsidiary of Symantec. Plaintiff’s lawsuit alleges that the software at issue, which scans a user’s computer system to identify and fix errors in the computer’s registry, “does not actually perform any meaningful evaluation of the user’s computer system” and that the software detects errors that “are not credible threats” to a user’s computer. FAC ¶¶ 44-45. Plaintiff further alleges that users are thus “duped” into purchasing software that “does not function as represented.” *Id.* ¶ 4. In amending his complaint, Plaintiff replaced nearly every instance of the word “software” with the term “Scareware” to induce the Court to prejudge the character of the software at issue.

Plaintiff’s allegations are without merit. Symantec is world-renowned for its top-of-the-line computer software and has been recognized for both the quality of its software and for its commitment to ethical leadership. The award-winning software at issue in this lawsuit offers among the best computer cleaning tools available to consumers, and has been praised by industry reviewers as “outstanding,” “the best option for those seeking peace of mind and ease of use,” and for having “delivered a noticeable performance improvement, which means that the software works as advertised.” Plaintiff will be unable to prove his baseless allegations. But even for purposes of the motion to dismiss, where Plaintiff’s factual allegations must be taken as true, Plaintiff’s Complaint should be dismissed under Rule 12(b)(6) for failure to state a claim, as well as under Rule 9(b) for failure to allege the claims with the requisite specificity.

As an initial matter, Plaintiff’s complaint against Symantec fails because Symantec was not a party to the underlying transaction that forms the basis of Plaintiff’s complaint. Plaintiff’s new attempt in his amended complaint to allege that PC Tools Ltd., the licensor of the software at issue, is the alter ego of Symantec fails because Plaintiff cannot allege (within the bounds of Rule 11) the critical factors necessary to show alter ego, especially where PC Tools Ltd. was already licensing the software purchased by Plaintiff long before its acquisition by Symantec.

1 Plaintiff's claims also individually fail for several additional reasons. Plaintiff's
2 California Business & Professions Code Section 17200 claim should be dismissed because non-
3 residents like Plaintiff Gross cannot rely on Section 17200 where the alleged wrongful conduct
4 occurred outside of California. *Sullivan v. Oracle Corp.*, 662 F.3d 1265, 1270 (9th Cir. 2011).

5 Plaintiff's fraudulent inducement claim, as well as each of his other claims, which are all
6 based on the same allegedly fraudulent representations, should be dismissed because (1) Plaintiff
7 cannot allege that Symantec made any fraudulent representations; (2) Plaintiff fails to plead
8 fraud with the specificity required by Rule 9(b); (3) Plaintiff cannot state a fraud claim based on
9 representations of future performance; (4) the alleged representations are non-actionable
10 statements of opinion; and (5) the allegations in the Complaint are implausible.

11 Plaintiff's breach of express warranty claim under California Commercial Code § 2313
12 should be dismissed because (1) California statutes do not apply to the software license
13 purchased by Plaintiff in Washington from PC Tools Ltd., an Irish company; (2) California
14 Commercial Code Section 2313 does not apply to software licenses generally; (3) even if the
15 California Commercial Code applied, Plaintiff fails to plead the required elements of an express
16 warranty; and (4) any express warranty was disclaimed in the parties' written agreement.

17 Plaintiff's claim for breach of contract should be dismissed because (1) Plaintiff cannot
18 allege any contract between Symantec and himself; (2) Plaintiff fails to allege the terms of an
19 express contract; (3) Plaintiff fails to sufficiently alleged an implied contract; (4) the express
20 terms of the software license agreement disclaim the obligations alleged by Plaintiff; and (5)
21 Plaintiff fails to sufficiently allege any breach of the alleged contract.

22 Plaintiff's breach of the implied covenant claim should be dismissed because (1) it is
23 duplicative of the breach of contract claim; (2) the alleged conduct did not deprive Plaintiff of
24 the fruits of the contract; and (3) it is based on conduct permitted by the contract.

25 Finally, Plaintiff's unjust enrichment claim fails because there is no cause of action for
26 unjust enrichment where an express contract exists.

27 For all of these reasons, Plaintiff's complaint should be dismissed with prejudice, as
28 Plaintiff will not be able to cure the defects in his claims.

1 **MEMORANDUM OF POINTS AND AUTHORITIES**

2 **STATEMENT OF FACTS AND ALLEGATIONS**

3 Symantec is a software company that provides award-winning security, storage, and
4 systems management software products to help its customers secure and manage their computer
5 systems. Symantec was number 382 on the Fortune 500 list in 2011 and ranks #7 in the
6 Computer Software Category on the Fortune Most Admired Companies List. In late 2008,
7 Symantec acquired PC Tools Pty. Ltd., an Australian software company with an Irish subsidiary
8 (PC Tools Ltd.), which develops and licenses software that can fix registry errors and address
9 privacy issues on a personal computer. ECF No. 33 (hereinafter “FAC”) ¶¶ 1, 3, 8, 15.

10 Plaintiff James Gross is a Washington resident who, after testing a trial version, bought a
11 license to use the full version of a PC Tools software product, PC Tools Registry Mechanic, via
12 the PC Tools website at www.pctools.com. *Id.* ¶¶ 6, 48, 51. In addition to certain “Terms and
13 Conditions of Purchase” that governed Plaintiff’s purchase of the full version of the software, an
14 end user license agreement (“EULA”) also governed his use of both the trial version and the full
15 version of the software. ECF No. 28-3. The EULA provides that “the licensor of the Software is
16 an Irish Company, PC Tools Limited (Irish Company Number 426110) and the parties to this
17 Agreement will be you and PC Tools Limited (Irish Company Number 426110).” EULA ¶ 1.1.

18 On January 10, 2012, Plaintiff filed this lawsuit against Symantec alleging that the
19 software at issue “does not actually perform any meaningful evaluation of the user’s computer
20 system” and that the software detects errors that “are not credible threats” to a user’s computer.
21 FAC ¶¶ 44-45. Based on these allegations, Plaintiff asserts six causes of action: (1) violation of
22 California Business and Professions Code § 17200, (2) fraudulent inducement, (3) breach of
23 express warranty under California Commercial Code § 2313, (4) breach of contract, (5) breach of
24 the implied covenant of good faith and fair dealing, and (6) unjust enrichment. Plaintiff seeks to
25 represent a nationwide class of all persons who purchased PC Tools Registry Mechanic and/or
26 two other software applications: PC Tools Performance Toolkit and Norton Utilities. *Id.* ¶ 53.

27 Symantec previously filed a motion to dismiss Plaintiff’s original complaint. ECF No.
28 28. Plaintiff made no attempt to oppose that motion. Instead, Plaintiff elected to voluntarily

1 amend his complaint pursuant to Fed. R. Civ. P. 15(a). *See* ECF No. 32. The focus of Plaintiff’s
2 amendment was to add PC Tools, Ltd. as a defendant and to allege that Symantec is liable for the
3 acts of PC Tools, Ltd. *See* FAC ¶¶ 1, 8, 16-33. Because Plaintiff’s amendments have not cured
4 the defects in his original complaint, Plaintiff’s claims should now be dismissed with prejudice.

5 **ARGUMENT**

6 **I. LEGAL STANDARD**

7 Under Rule 12(b)(6), a complaint should be dismissed when it “fail[s] to state a claim
8 upon which relief can be granted.” Fed. R. Civ. P. 12(b)(6). “In a motion to dismiss, the court
9 need not accept as true allegations that contradict matters properly subject to judicial notice or by
10 exhibit.” *Baltazar v. Apple Inc.*, No. 10-03231 WHA, 2011 WL 6747884, at *2 (N.D. Cal. Dec.
11 22, 2011) (citing *Sprewell v. Golden State Warriors*, 266 F.3d 979, 988 (9th Cir. 2001)). “[A]
12 court may consider a writing referenced in a complaint but not explicitly incorporated therein if
13 the complaint relies on the document and its authenticity is unquestioned.” *Swartz v. KPMG*
14 *LLP*, 476 F.3d 756, 763 (9th Cir. 2007) (internal quotation marks and citation omitted).

15 “[O]nly a complaint that states a plausible claim for relief survives a motion to dismiss.”
16 *Ashcroft v. Iqbal*, 556 U.S. 662, 129 S. Ct. 1937, 1950 (2009) (citing *Bell Atl. Corp. v. Twombly*,
17 550 U.S. 544, 556 (2007)). “Threadbare recitals of the elements of a cause of action, supported
18 by mere conclusory statements, do not suffice.” *Id.* at 1949. While the Court accepts as true all
19 material allegations, it need not accept the truth of conclusory allegations, unwarranted
20 inferences, or legal conclusions cast in the form of factual allegations. *Id.* at 1949-50; *Schmier*
21 *v. U.S. Court of Appeals*, 279 F.3d 817, 820 (9th Cir. 2002).

22 Under Rule 9(b), claims of fraud are held to an even higher pleading standard. A “party
23 must state with particularity the circumstances constituting fraud or mistake.” Fed. R. Civ. P.
24 9(b). A motion to dismiss under Rule 9(b) for failure to plead with particularity is the functional
25 equivalent of a motion to dismiss under Rule 12(b)(6) for failure to state a claim. *Vess v. Ciba-*
26 *Geigy Corp. USA*, 317 F.3d 1097, 1107 (9th Cir. 2003). Where a claim is based on allegations of
27 fraud, even though “fraud is not a necessary element of [the] claim . . . the pleading of that claim
28 as a whole must satisfy the particularity requirement of Rule 9(b).” *Id.* at 1103-04.

1 Here, Plaintiff's derogatory allegations about the software at issue are untrue. For
2 purposes of the motion to dismiss, however, in which the falsity of Plaintiff's allegations is
3 largely irrelevant, Plaintiff's Complaint should still be dismissed under Rule 12(b)(6) for failure
4 to state a claim, as well as under Rule 9(b) for failure to allege the claims -- which are all
5 grounded in fraud -- with the requisite specificity.

6 **II. PLAINTIFF'S CLAIMS AGAINST SYMANTEC SHOULD BE DISMISSED**
7 **BECAUSE SYMANTEC WAS NOT A PARTY TO THE TRANSACTION**

8 As an initial matter, Plaintiff's claims against Symantec fail because Symantec was not a
9 party to the underlying transaction that forms the basis of Plaintiff's complaint. The software
10 purchased by Plaintiff was not software developed or sold by Symantec. To the contrary,
11 Plaintiff purchased a license to use PC Tools Registry Mechanic from PC Tools Ltd. (not from
12 Symantec), and the PC Tools Registry Mechanic software was developed and marketed by PC
13 Tools Pty. Ltd. (not Symantec). FAC ¶¶ 6, 48, 51; EULA ¶ 1.1 ("the licensor of the Software is
14 an Irish Company, PC Tools Limited (Irish Company Number 426110) and the parties to this
15 Agreement will be you and PC Tools Limited (Irish Company Number 426110)"). Symantec
16 thus had no connection to Plaintiff's purchase of the Registry Mechanic software.

17 The mere ownership by Symantec of the PC Tools company, as alleged in the Complaint,
18 *see* FAC ¶ 1, is not a sufficient basis to state a cause of action against Symantec. *See United*
19 *States v. Bestfoods*, 524 U.S. 51, 61 (1998) ("It is a general principle of corporate law deeply
20 'ingrained in our economic and legal systems' that a parent corporation (so-called because of
21 control through ownership of another corporation's stock) is not liable for the acts of its
22 subsidiaries.") (citation omitted); *United States v. Bennett*, 621 F.3d 1131, 1137 (9th Cir. 2010)
23 (same). Nor can Plaintiff rely, as he attempts to do, on implausible conclusory allegations of
24 "alter ego," agency, or "civil conspiracy" to pull Symantec into this lawsuit. FAC ¶ 19. Because
25 PC Tools Ltd. was already licensing the software at issue long before its acquisition by
26 Symantec, the company was clearly not set up by Symantec as a shell corporation to "mask"
27 Symantec's alleged activities. *See id.* ¶ 15. Further, to the extent PC Tools is wholly owned and
28 allegedly managed by Symantec, such allegations are insufficient to show alter ego, agency, or

1 conspiracy. *Walsh v. Kindred Healthcare*, 798 F. Supp. 2d 1073, 1083 n.3 (N.D. Cal. 2011); *Sun*
2 *Microsystems Inc. v. Hynix Semiconductor Inc.*, 622 F. Supp. 2d 890, 899 (N.D. Cal. 2009).

3 Plaintiff's alter ego allegation also fails because Plaintiff does not (and could not) allege
4 facts showing "(1) that there is such unity of interest and ownership that the separate
5 personalities [of PC Tools and Symantec] no longer exist and (2) that failure to disregard [their
6 separate entities] would result in fraud or injustice." *Bauman v. DaimlerChrysler Corp.*, 644
7 F.3d 909, 920 (9th Cir. 2011) (quoting *Doe v. Unocal Corp.*, 248 F.3d 915, 926 (9th Cir. 2001)).
8 The corporate veil can be pierced "only when corporate separateness is *illusory*." *Katzir's Floor*
9 *& Home Design, Inc. v. M-MLS.com*, 394 F.3d 1143, 1149 (9th Cir. 2004) (emphasis added).
10 The "critical facts" that must be established to pierce the corporate veil are "inadequate
11 capitalization, commingling of assets, [or] disregard of corporate formalities." *Id.* Plaintiff has
12 alleged none of these "critical facts," let alone identified any "injustice" that would result absent
13 piercing the corporate veil. And Plaintiff's "[c]onclusory allegations of alter ego status are
14 insufficient." *Walsh v. Kindred Healthcare*, 798 F. Supp. 2d 1073, 1082 (N.D. Cal. 2011).

15 Plaintiff likewise fails to allege any of the required elements to show that PC Tools was
16 acting on Symantec's behalf as its agent in licensing the Registry Mechanic software to Plaintiff.
17 *Batzel v. Smith*, 333 F.3d 1018, 1035 (9th Cir. 2003) (agency requires a manifest mutual assent
18 between principal and agent that agent will act on principal's behalf and subject to its control).
19 Plaintiff similarly fails to allege with specificity, as required, any facts showing that Symantec
20 entered into an agreement with PC Tools Ltd. to form a "civil conspiracy" to defraud Plaintiff,
21 let alone any overt acts by Symantec to further the conspiracy. *See Swartz v. KPMG LLP*, 476
22 F.3d at 765; *Wasco Prods., Inc. v. Southwall Techs., Inc.*, 435 F.3d 989, 990-92 (9th Cir. 2006).

23 Plaintiff's claims against Symantec should, therefore, be dismissed with prejudice
24 because no amendment will cure the defects that Symantec was not a party to the underlying
25 transaction between Plaintiff and PC Tools, or that PC Tools could not have been set up as a
26 shell corporation because it was previously engaged in selling the software prior to acquisition.

1 **III. THE UNFAIR COMPETITION CLAIM SHOULD BE DISMISSED**

2 Plaintiff's claim brought under California Business & Professions Code Section 17200
3 should be dismissed because non-residents like Plaintiff Gross cannot bring a cause of action
4 under Section 17200 where the alleged wrongful conduct occurred outside of California.
5 *Sullivan v. Oracle Corp.*, 662 F.3d 1265, 1270 (9th Cir. 2011) (§ 17200 did not apply to
6 decisions and policy set by California-based company where policy was implemented against
7 plaintiffs out-of-state) (recognizing certified question answered by California Supreme Court in
8 *Sullivan v. Oracle Corp.*, 51 Cal. 4th 1191, 1207 (2011)); *Sajfr v. BBG Commc'ns, Inc.*, No. 10-
9 2341, 2012 WL 398991, at *4 (S.D. Cal. Jan. 10, 2012) (dismissing Section 17200 claims where
10 "[t]he conduct that forms the basis of Plaintiffs' Complaint simply has no connection to
11 California"); *Parkinson v. Hyundai Motor Am.*, 258 F.R.D. 580, 597-99 (C.D. Cal. 2008)
12 ("[E]xtraterritorial application of the UCL is improper where non-residents of California raise
13 claims based on conduct that allegedly occurred outside of the state.").

14 Here, Plaintiff cannot assert a Section 17200 claim because he is a Washington resident
15 who purchased a license over the Internet from an Irish company (PC Tools Ltd.) for software
16 developed and marketed by an Australian company (PC Tools Pty. Ltd.). FAC ¶¶ 6, 48, 51;
17 EULA ¶ 1.1. Consequently, as stated in *Sajfr*, "[t]he conduct that forms the basis of Plaintiffs'
18 Complaint simply has no connection to California," and, under *Sullivan*, the mere fact that
19 Symantec, the parent company of PC Tools, is headquartered in California is insufficient to
20 justify extraterritorial application of California law. Plaintiff's 17200 claim thus fails, as do the
21 claims he alleges on behalf of a putative nationwide class that includes nonresidents, *see Mazza*
22 *v. Am. Honda Motor Co.*, 666 F.3d 581, 594 (9th Cir. Cal. 2012) (vacating certification of class
23 of nationwide purchasers with respect to Section 17200 claim). Furthermore, even if Plaintiff
24 had been a California resident, his section 17200 claim would still fail because it is grounded in
25 fraud and Plaintiff has failed to plead fraud with the required specificity, as discussed below.

26 **IV. THE FRAUDULENT INDUCEMENT CLAIM SHOULD BE DISMISSED**

27 Plaintiff's fraudulent inducement claim, as well as each of his other claims, which are all
28 based on the same allegedly fraudulent representations, should be dismissed because (1) Plaintiff

1 cannot allege that Symantec made any fraudulent representations; (2) Plaintiff fails to plead
2 fraud with the specificity required by Rule 9(b); (3) Plaintiff cannot state a fraud claim based on
3 representations of future performance; and (4) the allegations of fraud in the Complaint are so
4 contradictory as to make them implausible.

5 “Under Washington law, the nine elements of fraud are (1) representation of an existing
6 fact; (2) materiality; (3) falsity; (4) the speaker’s knowledge of its falsity; (5) intent of the
7 speaker that it should be acted upon by the plaintiff; (6) plaintiff’s ignorance of its falsity; (7)
8 plaintiff’s reliance on the truth of the representation; (8) plaintiff’s right to rely upon the
9 representation; and (9) damages suffered by the plaintiff.”¹ *Wessa v. Watermark Paddlesports,*
10 *Inc.*, No. 06-5156, 2006 WL 1418906, at *2 (W.D. Wash. May 22, 2006) (citing *Stiley v. Block,*
11 *925 P.2d 194 (Wash. 1996)*). Here, Plaintiff’s fraud allegations are based on two alleged
12 representations: (1) a statement of opinion about what the product would do for Plaintiff in the
13 future, specifically, that the software “would honestly and accurately scan his computer for
14 harmful problems, increase the speed and stability of his computer, and protect his privacy”; and
15 (2) a statement of opinion about the health of Plaintiff’s computer, “that Plaintiff’s ‘System
16 Health’ was ‘LOW’ and that ‘High Priority’ errors existed on his computer.” FAC ¶ 77. Both
17 alleged representations fail to support a claim for fraud against Symantec.

18 First and foremost, Plaintiff cannot allege that Symantec made these representations to
19 him because, as discussed above, he only interacted with PC Tools and never interacted with
20 Symantec. *See supra* Section II.

21 Second, Rule 9(b) demands that “[a]verments of fraud must be accompanied by ‘the who,
22 what, when, where, and how’ of the misconduct charged.” *Vess*, 317 F.3d at 1106 (citation
23 omitted). “To avoid dismissal for inadequacy under Rule 9(b), the complaint must state the time,
24 place, and specific content of the false representations as well as the identities of the parties to

25
26 ¹ Plaintiff contends that the choice of law and venue clause in the EULA should not be
27 enforced, FAC ¶ 30-33, and, as set forth in its earlier motion, Symantec does not seek to enforce
28 it for purposes of this motion. Thus, the only state with an interest in Plaintiff’s claims is
Washington, which is his state of residence, the place where the alleged Internet transaction took
place, and the place where the software was installed. Accordingly, this motion relies on
Washington law, though Plaintiff’s claims are similarly deficient under California law.

1 the misrepresentation.” *Wessa*, 2006 WL 1418906, at *2 (emphasis added) (citing *Edwards v.*
2 *Marin Park, Inc.*, 356 F.3d 1058, 1066 (9th Cir. 2004); *Alan Neuman Prods., Inc. v. Albright*,
3 862 F.2d 1388, 1393 (9th Cir. 1988)). Here, the alleged representations lack the specificity
4 required under Rule 9(b) because Plaintiff fails to identify the content and location of any
5 specific statements made to him personally before purchasing the software that led him to
6 believe that PC Tools promised the software would detect “harmful problems, increase the speed
7 and stability of his computer, and protect his privacy,” Plaintiff fails to identify the location or
8 description of any of the individual errors on Plaintiff’s computer allegedly reported by the
9 software as being “high priority,” and Plaintiff fails to identify any basis for alleging that his
10 computer health was not in fact “low.” FAC ¶ 77. Plaintiff’s conclusory, vague, and scanty
11 allegations about the representations made to him and the alleged falsity of these representations
12 thus fail to meet the Rule 9(b) standard.

13 Third, to the extent the alleged representations contain a promise of what the software
14 would do for Plaintiff in the future if he purchased it and how his computer would perform after
15 using the software, they cannot support a fraud claim. “A representation of an existing fact must
16 exist independently of: (1) any future acts or actions on the part of the party making the
17 statement, (2) the occurrence of any other particular event in the future, and (3) the particular
18 future uses of the person to whom the statement is made.” *Wessa*, 2006 WL 1418906, at *3
19 (citing *Westby v. Gorsuch*, 50 P.3d 284 (Wash. Ct. App. 2002)). “Where the fulfillment or
20 satisfaction of the thing represented depends upon a promised performance of a future act, or
21 upon the occurrence of a future event, or upon particular future use, or future requirements of the
22 representee, then the representation is not of an existing fact.” *Id.* (quoting *Shook v. Scott*, 353
23 P.2d 431 (Wash. 1960)).

24 Fourth, not only do Plaintiff’s allegations of fraud fail to meet the Rule 9(b) standard, but
25 they also fail to meet even the “plausibility” standard of Rule 8. For example, Plaintiff’s
26 complaint effectively concedes that his computer system health was not good and needed to be
27 “enhanced,” which is why he searched for and downloaded a computer registry cleaning product.
28 *See* FAC ¶ 48. Plaintiff also, tellingly, only criticizes the free trial version of the software and

1 does not allege that the full version of the software purchased by Plaintiff lacked the promised
2 utility. *See id.* ¶¶ 48-52. Plaintiff further fails to state a plausible claim for fraud because the
3 Complaint confusingly alleges that the software does not even perform an actual scan of the
4 computer system, while elsewhere in the Complaint, Plaintiff concedes -- as he must under Rule
5 11 -- that it does perform the promised scan. *Compare* FAC ¶ 68 (alleging software “did not
6 perform an actual evaluation of Plaintiff’s computer”), *with id.* ¶¶ 42 (conceding that “each
7 software product allows the user to perform a scan to detect certain computer problems”), 44
8 (admitting that software performs an evaluation, just not what Plaintiff alleges to be a
9 “meaningful evaluation”), *and* 50 (admitting that an evaluation was performed on Plaintiff’s
10 computer and that it generated a report of errors). Consequently, Plaintiff fails to plausibly
11 allege that the alleged representations were actually false or that he was actually injured by the
12 manner in which the software operates.

13 **V. THE EXPRESS WARRANTY CLAIM SHOULD BE DISMISSED**

14 Plaintiff’s breach of express warranty claim under California Commercial Code § 2313
15 should be dismissed because (1) California statutes do not apply to the software license
16 purchased by Plaintiff in Washington from PC Tools Ltd., an Irish company; (2) California
17 Commercial Code Section 2313 does not apply to software licenses generally; (3) even if the
18 California Commercial Code applied, Plaintiff fails to plead the required elements of an express
19 warranty; and (4) any express warranty was disclaimed in the parties’ written agreement.

20 First, for the same reason that Plaintiff’s section 17200 claim fails, Plaintiff’s breach of
21 express warranty claim under California Commercial Code § 2313 fails because Plaintiff is a
22 Washington resident and California statutory law does not apply to transactions that take place
23 between non-residents completely outside of California. *See Sullivan*, 51 Cal. 4th at 1207;
24 *Norwest Mortg., Inc. v. Superior Court*, 72 Cal. App. 4th 214, 222-25 (1999). (“We ordinarily
25 presume the Legislature did not intend the statutes of this state to have force or operation beyond
26 the boundaries of the state.”); *Phillips Petroleum Co. v. Shutts*, 472 U.S. 797, 818 (1985)
27 (holding that due process clause of the United States Constitution places limitations on the
28

1 extraterritorial application of state law). Here, the California statute simply does not apply to
2 Plaintiff Gross' transaction with an Irish company in Washington.

3 Second, Plaintiff's express warranty claim under § 2313 also fails because the California
4 Uniform Commercial Code ("UCC") does not apply to intellectual property licenses such as the
5 software license at issue. *Sys. Am., Inc. v. Rockwell Software, Inc.*, No. 03-2232 JF, 2007 WL
6 218242, at *4 (N.D. Cal. Jan. 26, 2007) (California UCC does not cover "the transfer of
7 intellectual property rights" such as a software license agreement); *Sys. Unlimited, Inc. v. Cisco*
8 *Sys., Inc.*, 228 F. App'x 854, 859 (11th Cir. 2007) (California UCC does not apply to "[t]he sale
9 of intellectual property, which is what is involved here" because it "is not a transaction in
10 goods"); *Lamle v. Mattel, Inc.*, 394 F.3d 1355, 1359 n.2 (Fed. Cir. 2005) (California UCC does
11 not apply to "a license for intellectual property" because it "is not a sale of goods"); *Attachmate*
12 *Corp. v. Health Net, Inc.*, No. 09-1161, 2010 WL 4365833, at *2 (W.D. Wash. Oct. 26, 2010)
13 ("The weight of authority favors application of common law and not the UCC with regard to
14 software licenses."); *Digital Ally, Inc. v. Z3 Tech., LLC*, No. 09-2292, 2010 WL 3974674, at *9
15 (D. Kan. Sept. 30, 2010) (software license was not covered by the UCC); *Berthold Types Ltd. v.*
16 *Adobe Sys., Inc.*, 101 F. Supp. 2d 697, 698 (N.D. Ill. 2000) ("[T]he UCC does not apply to [a
17 software license] because it involves only granting a license and not a sale of goods.").

18 Third, even if California Commercial Code § 2313 could be applied to the software
19 license at issue (which it cannot), Plaintiff fails to adequately plead a breach of express warranty.
20 "To plead an action for breach of express warranty under California law, a plaintiff must allege:
21 (1) the exact terms of the warranty; (2) reasonable reliance thereon; and (3) a breach of warranty
22 which proximately caused plaintiff's injury." *Sanders v. Apple Inc.*, 672 F. Supp. 2d 978, 986-87
23 (N.D. Cal. 2009) (citing *Williams v. Beechnut Nutrition Corp.*, 185 Cal. App. 3d 135, 142
24 (1986)). "[S]tatements constituting 'mere puffery' cannot support liability under a claim for
25 breach of warranty" because "[t]he distinguishing characteristics of puffery are vague, highly
26 subjective claims as opposed to specific, detailed factual assertions." *Id.* at 987 (citing *Pulvers v.*
27 *Kaiser Found. Health Plan, Inc.*, 99 Cal. App. 3d 560, 565 (1979)); see also *Newcal Indus., Inc.*
28 *v. Ikon Office Solution*, 513 F.3d 1038, 1053 (9th Cir. 2008) (causes of action based on

1 statements of opinion and “puffery” that are “not a quantifiable claim and do[] not describe (or
2 misdescribe) any specific or absolute characteristic of [the product at issue]” are properly
3 dismissed at the pleading stage); *Weinstat v. Dentsply Int’l, Inc.*, 180 Cal. App. 4th 1213, 1227
4 (2010) (express warranty claim requires proof that seller’s statements constitute an affirmation of
5 fact or promise, or a description of the goods that was part of the basis of the bargain);

6 Here, Plaintiff fails to allege any actual statements by Symantec that would constitute an
7 express warranty because Symantec had no part in the transaction between Plaintiff and PC
8 Tools. *See supra* Section II. Plaintiff also fails to allege any statements made by PC Tools that
9 contained the “exact terms” of the alleged “express warranty.” To the contrary, Plaintiff vaguely
10 alleges that there were “express warranties” created by “affirmations of fact and promises made
11 through . . . advertising, websites, and in-software representations” that the “software would
12 truthfully identify and repair critical PC errors, increase computer speed, performance and
13 stability; protect against privacy risks; remove harmful errors; and ‘clean up’ hard drives.” FAC
14 ¶¶ 88-89. Plaintiff fails, however, to allege any specifics about where and when such express
15 warranties were made or the specific statements made by PC Tools that included the alleged
16 warranties. Plaintiff’s allegations are also based upon “vague, highly subjective” representations
17 about how the software would perform, representations that depend on a person’s subjective
18 interpretation of the words “critical,” “increased,” “performance,” “risks,” “harmful,” and “clean
19 up.” Such subjective representations are not “specific, detailed factual assertions” but instead are
20 mere statements of opinion and puffery that “cannot support liability under a claim for breach of
21 warranty.” *Sanders*, 672 F. Supp. 2d at 987.

22 Fourth, because every computer has its own unique errors, PC Tools could not guarantee
23 success in removing all errors from all computers, and the parties’ written agreement necessarily
24 disclaimed any such warranty. *Kowalsky v. Hewlett-Packard Co.*, 771 F. Supp. 2d 1138, 1155-
25 56 (N.D. Cal. Dec. 13, 2010) (dismissing warranty claims where seller disclaimed warranties),
26 *vacated in part on other grounds*, 771 F. Supp. 2d 1156 (N.D. Cal. 2011). As stated in the
27 parties’ written agreement, “[i]n particular, PC Tools does not guarantee that the Software will
28 detect, remove or rectify any errors on your computer, including, without limitation any errors in

1 your Window's registry file or other operating system errors." EULA ¶ 4.1. The agreement
2 further disclaimed any express or implied warranties: "PC Tools makes no warranties in relation
3 to the Software, including warranties as to the performance or fitness for purpose of the
4 Software." *Id.* ¶ 4.5(a). Consequently, Plaintiff cannot state a breach of express warranty claim.

5 **VI. THE BREACH OF CONTRACT CLAIM SHOULD BE DISMISSED**

6 Plaintiff's claim for breach of contract should be dismissed because (1) Plaintiff cannot
7 allege any contract between Symantec and himself; (2) Plaintiff fails to allege the terms of an
8 express contract; (3) Plaintiff fails to sufficiently allege an implied contract; (4) the express terms
9 of the software license agreement disclaim the obligations alleged by Plaintiff; and (5) Plaintiff
10 fails to sufficiently allege any breach of the alleged contract.

11 First, Plaintiff cannot allege any contract between Symantec and himself when the
12 transaction at issue was between Plaintiff and PC Tools. *See supra* Section II. Since Symantec
13 was not a party to the alleged contract, Symantec could not have breached that contract.

14 Second, Plaintiff fails to sufficiently allege the terms of an express contract. "A breach-
15 of-contract claim under Washington law requires a showing of '(1) a contract that imposed a
16 duty, (2) breach of that duty, and (3) an economic loss as a result of that duty.'" *Muniz v.*
17 *Microsoft Corp.*, No. 10-0717, 2010 WL 4482107, at *3 (W.D. Wash. Oct. 29, 2010) (quoting
18 *Myers v. State*, 218 P.3d 241, 243 (Wash. Ct. App. 2009)). "A breach of contract claim must
19 point to a provision of the contract that was breached" because "a contract cannot be breached if
20 the contract does not include the term in question." *Id.* Where a plaintiff fails to attach a copy of
21 the contract to the complaint or fails to allege the essential terms of the contract with the
22 requisite specificity, the plaintiff "fail[s] to state breach of contract claims." *McAfee v. Francis*,
23 No. 11-00821, 2011 WL 3293759, at *2 (N.D. Cal. Aug. 1, 2011).

24 Here, Plaintiff fails to sufficiently allege the essential terms of the contract because the
25 Complaint only vaguely alleges that Plaintiff entered into a contract with Symantec when
26 Plaintiff "agreed to purchase software that would detect and remove legitimate computer errors
27 from Plaintiff's . . . computer[]." FAC ¶ 95. Plaintiff fails to allege, however, how a contractual
28 obligation to provide "software that would detect and remove legitimate computer errors" ever

1 became a part of the contract. *Id.* Indeed, the factual allegations of the Complaint merely allege
2 that *after* Plaintiff had tested the trial version of the Registry Mechanic software, he then agreed
3 to buy a license to the software by clicking the “Purchase Online” button and by paying the
4 license fee. *See id.* ¶ 51. Nowhere in that process does Plaintiff allege he made his offer
5 conditional on a promise that the software would achieve specific results. Nor does Plaintiff
6 allege in which specific statement PC Tools promised that the software would detect and remove
7 “legitimate” errors. Consequently, even though the software is actually very effective at
8 detecting and removing real errors, for purposes of this motion to dismiss, Plaintiff has failed to
9 sufficiently allege any express contractual obligation requiring the software to do so.

10 Third, to the extent Plaintiff’s cause of action is based on an “implied” promise that the
11 software would achieve specific results, *see id.* ¶ 96, Plaintiff has failed to plead sufficient facts
12 to support a cause of action based on implied contract. “In Washington, an implied contract
13 exists [only] if there is an offer; there is an acceptance; the acceptance is in the terms of the offer;
14 it is communicated to the offeror; there is mutual intention to contract; and there is a meeting of
15 the minds of the parties.” *Schultz v. United Airlines, Inc.*, 797 F. Supp. 2d 1103, 1107 (W.D.
16 Wash. 2011) (citing *Milone & Tucci, Inc. v. Bona Fide Builders, Inc.*, 301 P.2d 759, 762 (Wash.
17 1956)). Showing “mutual acceptance” of the terms and a “meeting of the minds” is a critical
18 element of an implied contract claim. *See Kwan v. Clearwire Corp.*, No. 09-1392, 2012 WL
19 32380, at *6 (W.D. Wash. Jan. 3, 2012) (“a contract requires a ‘meeting of the minds’ and ‘a
20 manifestation of mutual assent’”). “In order to form a valid contract, there must be an objective
21 manifestation of mutual assent.” *Discover Bank v. Ray*, 162 P.3d 1131, 1133 (Wash. Ct. App.
22 2007) (emphasis added).

23 A seller’s representations on its website describing a product or service that are merely
24 “aspirational” and “precatory” do not demonstrate the requisite manifestation of assent to create
25 an implied contract. *Schultz*, 797 F. Supp. 2d at 1107 (holding that “language on [airline’s]
26 website expressing its aspirational intention to deliver baggage in a timely manner [was]
27 insufficient to create an implied contract” because such website language was “merely precatory,
28 and falls far short of evincing an intent to contract”). Here, as in *Schultz*, Plaintiff fails to allege

1 sufficient facts to demonstrate any meeting of the minds on the alleged obligation to provide
2 software that would achieve certain results. Plaintiff does not allege any specific statements that
3 were present on the PC Tools website or other materials that evidenced any intent to create a
4 distinct contract about the results to be achieved by the software. Nor does Plaintiff allege any
5 facts showing an “objective manifestation” of assent by PC Tools to an obligation to provide
6 software that would achieve certain results. To the extent the software materials indicated that
7 the software is designed to remove errors, such representations are not the legal equivalent of an
8 enforceable contractual obligation. Consequently, even though the software is very effective at
9 removing errors, Plaintiff can show no implied contract requiring the software to do so.

10 Fourth, Plaintiff’s contract claim fails because the express terms of the written software
11 license agreement disclaim any promise that the software would achieve any specific results.
12 Plaintiff cannot bring a claim for implied contract that disregards the express terms of his
13 software license agreement. *Do Sung Uhm v. Humana, Inc.*, 620 F.3d 1134, 1143 n.13 (9th Cir.
14 2010) (“under Washington state law, ‘a party to a valid express contract is bound by the
15 provisions of that contract, and may not disregard the same and bring an action on an implied
16 contract relating to the same matter, in contravention of the express contract’”) (quoting
17 *Chandler v. Wash. Toll Bridge Auth.*, 137 P.2d 97, 103 (1943)). Here, Plaintiff’s use of the full
18 version of the software was conditioned on his acceptance of the express terms of the EULA,
19 which contained no promise that the software would be able to rectify errors on Plaintiff’s
20 computer. To the contrary, the EULA stated that “[i]n particular, PC Tools does not guarantee
21 that the Software will detect, remove or rectify any errors on your computer, including, without
22 limitation any errors in your Window’s registry file or other operating system errors.” EULA ¶
23 4.1. The agreement further disclaimed any obligation that the software would actually achieve
24 such results: “PC Tools makes no warranties in relation to the Software, including warranties as
25 to the performance or fitness for purpose of the Software.” *Id.* ¶ 4.5(a).

26 Fifth, Plaintiff’s contract claim fails because Plaintiff fails to provide “specific allegations
27 as to breach.” *McAfee*, 2011 WL 3293759, at *2; *see also Muniz*, 2010 WL 4482107, at *3
28 (plaintiff must sufficiently allege a breach of a contractual duty); *see also Levy v. State Farm*

1 *Mut. Auto. Ins. Co.*, 150 Cal. App. 4th 1, 5 (2007) (“Facts alleging a breach, like all essential
2 elements of a breach of contract cause of action, must be pleaded with specificity.”). Plaintiff’s
3 allegations of breach are deficient because Plaintiff does not allege any facts showing that *after*
4 the contract was formed -- after Plaintiff purchased a license to use the full version of the
5 software -- the software did not remove “legitimate computer errors” from his computer pursuant
6 to the alleged obligation to do so. Plaintiff’s allegations about the deficiencies of the software all
7 pertain to his use of the *trial version* of the software. See FAC ¶¶ 50-52. He makes no
8 allegations about what happened with respect to removal of errors from his computer after he
9 installed the full version. Consequently, Plaintiff fails to make any “specific allegations”
10 identifying a breach of the contract by the full version of the software that he purchased.

11 **VII. THE IMPLIED COVENANT CLAIM SHOULD BE DISMISSED**

12 Plaintiff’s breach of the implied covenant claim should be dismissed because (1) it is
13 duplicative of the breach of contract claim; (2) the alleged conduct did not deprive Plaintiff of
14 the fruits of the contract; and (3) it is based on conduct permitted by the contract.

15 First, Plaintiff’s implied covenant claim should be dismissed because it is duplicative of
16 the breach of contract claim and based on the same alleged conduct. Compare FAC ¶ 98, with
17 *id.* ¶ 103, 107-108; see *McLauchlan v. Aurora Loan Servs. LLC*, No. 10-1560, 2011 WL
18 2650203, at *2 (W.D. Wash. July 6, 2011) (dismissing duplicative implied covenant claim not
19 based on “distinct conduct from the conduct involved in the breach of contract claim”); *Zepeda*
20 *v. PayPal, Inc.*, 777 F. Supp. 2d 1215, 1221 (N.D. Cal. 2011) (an implied covenant claim is
21 properly dismissed if it relies on the same alleged acts as a contract claim).

22 Second, Plaintiff’s implied covenant claim should be dismissed because Plaintiff’s
23 allegations do not show that he was denied the benefit of the contract. Indeed, as explained
24 above, Plaintiff does not allege any facts showing that after Plaintiff purchased the full version of
25 the software, the software did not, in fact, remove “legitimate computer errors” from his
26 computer. Plaintiff’s allegations about the deficiencies of the software are directed to his use of
27 the *trial version* of the software *before* any contract was formed. See FAC ¶¶ 50-52. Such
28 conduct prior to the formation of the contract cannot form the basis of an implied covenant

1 claim. *See Nikoonahad v. Rudolph Techs., Inc.*, No. 08-2290 JF, 2010 WL 4340395, at *7 (N.D.
2 Cal. Oct. 27, 2010) (“In an action for breach of the implied covenant of good faith and fair
3 dealing, a plaintiff cannot prove fraudulent intent by pointing to conduct that falls outside of the
4 contract.”) (citing *AccuSoft Corp. v. Palo*, 237 F.3d 31, 45 (1st Cir. 2001) (implied covenant
5 does not apply to “conduct occurring prior to the contract’s existence.”)).

6 Third, Plaintiff’s implied covenant claim should be dismissed because an implied
7 covenant claim cannot be based on conduct permitted by the parties’ contract. *Willis v.*
8 *Champlain Cable Corp.*, 748 P.2d 621, 627-28 (Wash. 1988) (courts should not imply covenants
9 of good faith that are inconsistent with the express contract terms); *In re Late Fee & Over-Limit*
10 *Fee Litig.*, 528 F. Supp. 2d 953, 966 (N.D. Cal. 2007) (it is a “well-settled principle that the
11 implied covenant cannot prohibit that which the contract specifically permits”). Here, the EULA
12 expressly contemplates that, while the software is designed to repair errors, in some cases it
13 might not be able to do so. EULA ¶¶ 4.1, 4.5(a). Consequently, even if the software had been
14 unsuccessful in repairing errors on Plaintiff’s computer, the implied covenant was not breached.

15 **VIII. THE UNJUST ENRICHMENT CLAIM SHOULD BE DISMISSED**

16 Plaintiff’s unjust enrichment claim fails because Plaintiff alleges, and the EULA reflects,
17 that an express contract existed between the parties. Where “a contract exists, Plaintiff may not
18 bring a claim on the theory of unjust enrichment.” *Schultz*, 797 F. Supp. 2d at 1107; *see also*
19 *Swartz v. Deutsche Bank*, No. 03-1252, 2008 WL 1968948, at *25 (W.D. Wash. May 2, 2008)
20 (where plaintiff sued “based on the express terms of the written agreements . . . , the unjust
21 enrichment claim is inappropriate and [defendant’s] motion to dismiss it will be granted.”).

22 **CONCLUSION**

23 For foregoing reasons, the First Amended Complaint should be dismissed with prejudice.
